## **Position Statement:**

The CPF graciously awarded me, along with many other fortunate and qualified students, a scholarship earlier this year. This scholarship and conversations with CPF board members at the CA APA Conference spurred my interest in being a part of such an impactful organization. I am interested in fulfilling the responsibilities of either the CPF Treasurer or the CPF Webmaster. I am experienced with social media account management and the maintenance of project websites and am certain I can uphold the integrity of CPF financial proceedings. I am an energetic and passionate young planner based in San Diego, seeking opportunities to be involved in organizations which contribute to the success of the profession. As CPF Webmaster or Treasurer, I hope to help the organization achieve its goals of fostering professional development and alleviating financial need.
