1st House				2nd House							

Summary: Current law requires certain transportation planning agencies to prepare and adopt regional transportation plans directed at achieving a coordinated and balanced regional transportation system. Current law requires each regional transportation plan to also include a sustainable communities strategy prepared by each metropolitan planning organization in order to, among other things, achieve certain targets established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region for 2020 and 2035, respectively. This bill would state the intent of the Legislature to enact subsequent legislation that would require regional transportation agencies to prioritize and fund transportation projects, including those funded by a local sales tax measure, that significantly contribute towards the goals outlined in a region's sustainable communities strategy and the state's climate goals.

Summary: The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. Under the act, the state board is required to approve a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020 and to ensure that statewide greenhouse gas emissions are reduced to at least 40% below the 1990 level by no later than December 31, 2030. Under the act, a violation of a rule, regulation, order, emission limitation, emission reduction measure, or other measure adopted by the state board under the act is a crime. This bill instead would require the state board to ensure that statewide greenhouse gas emissions are reduced to at least 55% below the 1990 level by no later than December 31, 2030.

Summary: Current law declares that the availability of housing is of vital statewide importance. Current law declares that the provision of housing affordable to low- and moderate-income households requires the cooperation of all levels of government. Current law declares that housing prices in California have risen dramatically in all parts of the state in the past decade, while the wealth gap, especially the racial wealth gap, continues to be a growing problem in California. Existing law establishes various programs for the development and preservation of affordable housing, including

the Affordable Housing Revolving Development and Acquisition Program and the California Dream for All Program. This bill would create the Affordable California Commission. The bill would require that the commission be composed of 11 members, including 9 members appointed by the Governor, the Speaker of the Assembly, and the President pro Tempore of the Senate, as provided, and one member each from the Assembly and the Senate, who would serve as ex officio nonvoting members, as specified.

Summary: Current law requires the State Air Resources Board, by July 1, 2023, to develop a comprehensive strategy for the state's cement sector to achieve net-zero emissions of greenhouse gases associated with cement used within the state as soon as possible, but no later than December 31, 2045. Current law, effective January 1, 2023, requires the state board, by July 1, 2025, to develop, in consultation with specified stakeholders, a framework for measuring and then reducing the average carbon intensity of the materials used in the construction of new buildings, including those for residential uses. This bill would require the state board to establish an embodied carbon trading system, as defined, and would make it applicable to building materials providers, developers,

architectural and engineering firms, and construction companies. The bill would require the state board to integrate the embodied carbon trading system into the framework on or before December 31, 2026, and to implement the system on and after January 1, 2029. The bill would require the state board to adopt rules and regulations for the credit allocation method, the anticipated carbon price in the scheme, and trading periods, and would make a violation of a rule, regulation, order, emission limitation, emissions reduction measure, or other measure adopted by the state board pursuant to these and other requirements of the bill an emission of an air contaminant for the purposes of the penalty provisions of the California Global Warming Solutions Act of 2006.

Summary: The State Air Resources Board is required to adopt a statewide greenhouse gas emissions limit equivalent to the statewide greenhouse gas emissions level in 1990 to be achieved by 2020 and to ensure that statewide greenhouse gas emissions are reduced to at least 40% below the 1990 level by 2030, and to adopt rules and regulations in an open public process to achieve the maximum, technologically feasible, and cost-effective greenhouse gas emissions reductions. The act authorizes the state board to include the use of market-based compliance mechanisms. Existing law requires all moneys, except for fines and penalties, collected by the state board from the auction or sale of allowances as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund and to be available upon appropriation. Current law requires the Department of Finance, in consultation with the state board and any other relevant state agency, to develop, as specified, a 3-year investment plan for the moneys deposited in the Greenhouse Gas Reduction Fund. Current law authorizes moneys in the fund to be allocated, as specified, for an investment in a traffic signal synchronization component that is part of a sustainable infrastructure project if the component is designed and implemented to achieve cost-effective reductions in greenhouse gas emissions and includes specific emissions reduction targets and metrics to evaluate the project's effect. This bill would additionally authorize moneys in the fund to be allocated for an investment in a traffic signal synchronization component that is part of a roadway improvement project requiring multiple signals, including, but not limited to, multimodal redevelopment projects, rail trail projects, urban renewal projects, or a project near transit facilities, if the component is designed and implemented to achieve cost-effective reductions in greenhouse gas emissions and includes specific emissions reduction targets and metrics to evaluate the project's effect.

Summary: Current law requires that, except as specified, not less than the general prevailing rate of per diem wages, determined by the Director of Industrial Relations, be paid to workers employed on public works projects. Existing law defines the term "public works" for purposes of requirements regarding the payment of prevailing wages to include construction, alteration, demolition, installation, or repair work done under contract and paid for using public funds, except as specified. Current law makes a willful violation of laws relating to the payment of prevailing wages on public works a misdemeanor. This bill would, commencing January 1, 2025, expand the definition of "public works" to include fuel reduction work done under contract and paid for in whole or in part out of public funds performed as part of a fire mitigation project, as specified. The bill would limit those provisions to work that falls within an apprenticeship program in the building and construction trades for which an apprenticeship program has been approved and to contracts in excess of \$100,000. Summary: Under the Gambling Control Act, a city, county, or city and county may authorize controlled gambling consistent with state law. Current law, however, prohibits an ordinance that would result in an expansion of gambling in the city, county, or city and county from being valid unless the amendment is approved by a majority of the voters. Current law requires an amendment to a city or county ordinance relating to a gambling establishment or the act to be submitted to the department for review and comment before the ordinance is adopted by the city or county. Prior law, until January 1, 2023, prohibited the commission from issuing a gambling license for a gambling establishment that was not licensed to operate on December 31, 1999, except as specified. This bill would reenact that prohibition until January 1, 2043, and would prohibit the commission from issuing a gambling license for a gambling establishment that was not licensed to operate on December 31, 2022, and that is pending before the commission as of January 1, 2024.

Summary: The Density Bonus Law requires a city or county to provide a developer that proposes a housing development within the city or county with a density bonus and other incentives or concessions, as specified, if the developer agrees to construct certain types of housing. Current law provides for the calculation of the amount of density bonus for each type of housing development that qualifies under these provisions. Current law defines the term "density bonus" for these purposes to mean a density increase over the otherwise maximum allowable gross residential density as of the date of the application, as described. Current law defines the term "maximum allowable residential density" for these purposes to mean the maximum number of units allowed under the zoning ordinance, specific plan, or land use element of the general plan, or, if a range of density is permitted, the maximum number of units allowed by the specific zoning range, specific plan, or land use element of the general plan applicable to the project. Current law provides under that definition that if the density allowed under the zoning ordinance is inconsistent with the density allowed under the land use element of the general plan or specific plan, the greater density prevails. This bill would remove from the definition of "maximum allowable residential density" the provision stating that the greater density prevails if the density allowed under the zoning ordinance is inconsistent with the density allowed under the land use element of the general plan or specific plan.

Summary: Current law governs the sale to certain entities of a property that has been tax defaulted for 5 years or more, or 3 years or more, as applicable, in an applicable county, including by authorizing the state, county, any revenue district the taxes of which on the property are collected by county officers, or a redevelopment agency created pursuant to the California Community Redevelopment Law, to purchase the property or any part thereof, as prescribed. Current law authorizes a nonprofit organization to purchase, with the approval of the board of supervisors of the county in which it is located, a residential or vacant property that has been tax-defaulted for 5 years or more, or 3 years or more if the property is subject to a nuisance abatement lien, as prescribed. Current law requires the sales price of a property sold pursuant to the provisions described or referenced above to include certain amounts, including all defaulted taxes and assessments and all associated penalties and costs.

This bill would prohibit a property or property interest from being offered for sale under the provisions described above if that property or property interest has not been offered for sale under specified described provisions.

Summary: The Insurance Rate Reduction and Reform Act of 1988, an initiative measure enacted by Proposition 103, as approved by the voters at the November 8, 1988, statewide general election, prohibits specified insurance rates from being approved or remaining in effect that are excessive, inadequate, unfairly discriminatory, or otherwise in violation of the act. In considering whether a rate is excessive, inadequate or unfairly discriminatory, current law requires the Insurance Commissioner to consider whether the rate mathematically reflects the insurance company's investment income. Current law authorizes the provisions of Proposition 103 to be amended by a statute that furthers the purposes of the act and is enacted by the Legislature with a 2/3 vote. For insureds 65 years of age or older, this bill would limit an increase in their yearly premium for a policy of residential property insurance by no more than 25 percent for insured property located in a high or very high fire hazard severity zone, as identified by the State Fire Marshal, as specified, and allow only one premium

Summary: Current law prescribes requirements for the disposal of surplus land by a local agency, as defined, and requires, except as provided, a local agency disposing of surplus land to comply with certain notice requirements before disposing of the land or participating in negotiations to dispose of the land with a prospective transferee, particularly that the local agency send a notice of availability to specified entities that have notified the Department of Housing and Community Development of their interest in surplus land, as specified. If the local agency receives a notice of interest, the local agency is required to engage in good faith negotiations with the entity desiring to purchase or lease the surplus land. Current law defines terms for purposes of these provisions, including the term "exempt surplus land," which includes, among other things, surplus land that is put out to open, competitive bid by a local agency, as specified, for purposes of a mixed-use development that is more than one acre in area, that includes not less than 300 housing units, and that restricts at least 25% of the residential units to lower income households with an affordable sales price or an affordable rent for a minimum of 55 years for rental housing and 45 years for ownership housing. Current law specifies that in no case shall the application screening fee charged by the landlord or their agent be greater than \$30. Existing law requires a landlord or their agent give a copy of a consumer credit report to an applicant who has paid an application screening fee and who is the subject of that report, if so requested by the applicant. Summary: The California Endangered Species Act requires the Department of Fish and Wildlife to adopt regulations for the issuance of incidental take permits. Existing law also generally provides that a violation of the Fish and Game Code is a crime. The act also provides, until January 1, 2024, that the accidental take of a candidate, threatened, or endangered species resulting from an act that occurs on a farm or a ranch in the course of otherwise lawful routine and ongoing agricultural activities is not prohibited by the act, as provided, and would require a person, when an accidental take is known to occur under these provisions, to report the take to the department within 10 days. This bill would extend indefinitely the above-mentioned exception to the act and the related reporting requirements. By extending the duration of this reporting requirement, the violation of which would be a crime, the bill would impose a state-mandated local program.

Summary: Current law prescribes requirements for the disposal of surplus land by a local agency. Current law defines terms for these purposes, including, among others, "surplus land". Current law defines "exempt surplus land" to mean, among other things, surplus land that a local agency is exchanging for another property necessary for the agency's use and surplus land that a local agency is transferring to another local, state, or federal agency for the agency's use. Current law provides that an agency is not required to follow the requirements for disposal of surplus land for "exempt surplus land," except as provided. This bill would add to the definition of "exempt surplus land" land acquired by a local agency for the development of a university and innovation district in accordance with a sectional plan area (SPA) plan adopted by the local agency prior to January 1, 2019, provided that the land is developed in a manner substantially consistent with the SPA plan.

Summary: Current law, upon change in control of a grocery establishment, requires an incumbent grocery employer, within 15 days after the execution of the transfer document, to provide to the successor grocery employer a list of eligible grocery workers, as specified, and requires the successor grocery employer to maintain a preferential hiring list of eligible grocery workers, to hire from that list for 90 days after the grocery establishment is fully operational and open to the public under the successor grocery employer, and to retain each eligible grocery worker hired for at least 90 days after their commencement date, except as specified. Current law exempts from those provisions grocery establishments that are located in geographic areas designated by the United States Department of Agriculture as a food desert if specified conditions apply. The bill would prohibit a successor grocery store employer to cause a grocery establishment that is located in a geographic area designated as a food desert to cease being fully operational and open to the public until the establishment provides notice to the city council, city attorney, board of supervisors, county counsel, State Department of Public Health, and Attorney General 180 days before the establishment ceases to be fully operational and open to the public.

Summary: Current law permits a person who holds or is acquiring an ownership interest of record in property that the person believes is the subject of an unlawfully restrictive covenant based on, among other things, the number of persons or families who may reside on the property, to record a restrictive covenant modification. Current law entitles the owner of an affordable housing development to establish that an existing restrictive covenant is unenforceable by submitting a restrictive covenant modification document that modifies or removes any existing restrictive covenant language. Before recording the modification document, existing law requires the owner to submit to the county recorder a copy of the original restrictive covenant and any documents the owner believes necessary to establish that the property qualifies as an affordable housing development for purposes of these provisions. As part of this process, existing law requires the county counsel to determine, among other things, if the property qualifies as an affordable housing development and if a modification document may be recorded. If the county counsel has authorized the county recorder to record the modification document, that authorization is required to be noted on the face of the modification or on a cover sheet affixed to it. This bill would require the county recorder to notify the owner of the county counsel's determination within 5 business days so that notice may be given by the owner regarding the authorization to record the modification document. The bill would permit the owner, upon receipt of that notification, to mail copies of the modification documents and related materials by certified mail to anyone who the owner knows has an interest in the property or the restrictive covenant.

These permits include, but are not limited to, building permits and all interdepartmental review required for the issuance of a building permit, permits for minor or standard off-site improvements, permits for demolition, and permits for minor or standard excavation and grading. Current law defines other terms for its purposes. Current law establishes time limits for completing reviews regarding whether an application for a postentitlement phase permit is complete and

compliant, and whether to approve or deny an application, as specified, and makes any failure to meet these time limits a disapproval of the housing development project and a violation of the Housing Accountability Act. Current law requires a local agency, beginning on specified dates determined by population size, to provide an option for postentitlement phase permits to be applied for, completed, and retrieved by the applicant on its internet website, and accept applications for postentitlement phase permits and any related documentation by electronic mail until that process has been established. This bill would modify the definition of "postentitlement phase permits" to eliminate the nondiscretionary aspect of permits not otherwise excluded, thereby applying the definition to those permits without regard to whether they are nondiscretionary.

Summary: Current law, for purposes of governing property rights, defines a "solar energy system" as specified to include any solar collector or other solar energy device whose primary purpose is to provide for the collection, storage, and distribution of solar energy for space heating, space cooling, electric generation, or water heating. Current law prescribes and limits permit fees that a city or county may charge for a residential and commercial solar energy system. Current law repeals these provisions on January 1, 2025. This bill would extend that repeal date to January 1, 2034. By extending the operation of the requirements imposed on a city or county in connection with those solar energy systems, the bill would impose a state-mandated local program.

Summary: The Outdoor Advertising Act regulates the placement of an off-premises advertising display along highways that generally advertises business conducted or services rendered or goods produced or sold at a location other than the property where the display is located. The act does not apply to an on-premises advertising display, which generally advertises business conducted or services rendered or goods produced or sold at the location where the display is located. Until January 1, 2023, the act treats an off-premises advertising display developed as part of and within the boundary limits of a redevelopment agency project, as those boundaries existed on December 29, 2011, as an on-premises advertising display if it meets specified criteria for good cause. From January 1, 2024, to January 1, 2025, this bill would allow the applicable city, county, or city and county to request from the department a 10-year extension for treating a display in a redevelopment agency project, as described above, as an on-premises display if the display meets the criteria for a finding of good cause, was in use on December 31, 2022, and complies with specified provisions of the act, including, but not limited to, the act's licensing and zoning requirements. Summary: The Housing Crisis Act of 2019, among other things, prohibits an affected city or an affected county, as defined, from approving a housing development project that will require the demolition of one or more residential dwelling units, unless the project creates at least as many residential dwelling units as will be demolished. The act also prohibits an affected city or affected county from approving any housing development project that will require the demolition of occupied or vacant protected units, unless specified conditions are met. In this regard, the act requires a project that will require the demolition of occupied or vacant protected units to, among other things, (1) replace all existing or demolished protected units, (2) include a minimum amount of residential units, (3) allow existing occupants to occupy their units until 6 months before the start of construction activities, and (4) provide relocation benefits to the existing occupants of any protected units that are lower income households. This bill would expand the demolition of residential dwelling units prohibitions to prohibit an affected city or affected county from approving any development project that will require the demolition of occupied or vacant protected units, or that is located on a site where protected units were demolished in the previous 5 years, unless the conditions described above are met.

Summary: Current law establishes, among various other programs intended to address homelessness in this state, the Homeless Housing, Assistance, and Prevention program for the purpose of providing jurisdictions with one-time grant funds to support regional coordination and expand or develop local capacity to address their immediate homelessness challenges informed by a best-practices framework focused on moving homeless individuals and families into permanent housing and supporting the

efforts of those individuals and families to maintain their permanent housing. Existing law provides for the allocation of funding under the program among continuums of care, cities, counties, and tribes in 4 rounds, which are to be administered by the Interagency Council on Homelessness. Current law, beginning with round 3 of the program, requires applicants to provide specified information for all rounds of program allocations through a data collection, reporting, performance monitoring, and accountability framework, as established by the council. This includes data on the applicant's progress towards meeting their outcome goals, to be submitted annually, for each year of the program, and other information if the applicant has not made significant progress towards those goals. This bill would also require data and a narrative summary of specific and quantifiable steps that the applicant has taken to improve the delivery of housing and services to people experiencing homelessness or at risk of homelessness, on transit properties that operate in their jurisdiction.

This bill would authorize an entity tasked with making referrals of units targeted to extremely low income households to match prospective tenants with incomes at 60% of the area median income, as defined, in the event that an eligible tenant is unable to be matched to and accept placement in an available unit. The bill would require an entity tasked with making referrals to these units to make a good faith effort to match a tenant with an extremely low income, document these good faith efforts, and make this documentation available to the departments upon request.

Summary: Existing law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations through the issuance of a building permit or similar nondiscretionary permit and requires the review of an application to install an electric vehicle charging station to be limited to the building official's review of whether it meets all health and safety requirements of local, state, and federal law. Existing law prohibits a city, county, or city and county from denying an application for a use permit to install an electric vehicle charging station unless it makes written findings that the proposed installation would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact. Existing law requires that any conditions imposed on an application to install an electric vehicle charging station be designed to mitigate the specific, adverse impact upon the public health or safety at the lowest cost possible. Summary: Current property tax law requires that all property subject to tax be assessed at its full cash value, and includes certain possessory interests among those property interests that are subject to tax. Current property tax law defines a taxable possessory interest to be a use that is independent, durable, and exclusive. Current property tax law specifies that, for purposes of the definition of a taxable possessory interest, a possession or use is not independent if it is pursuant to a contract that includes, but is not limited to, a long-term lease for the private construction, renovation, rehabilitation, replacement, management, or maintenance of housing for active duty military personnel and their dependents, if specified criteria are met. This bill would provide that there is no independent possession or use of land or improvements if the possession or use is for a tenancy, as defined, in a residential unit, as defined, in a publicly owned housing project, as defined, is part of a governmental assistance program, and directly fulfills the governmental, public purpose of providing the housing, as described in the governmental assistance program.

Summary: The California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access For All Act of 2018, approved by the voters as Proposition 68 at the June 5, 2018, statewide primary election, authorizes the issuance of bonds in the amount of \$4,100,000,000 pursuant to the State General Obligation Bond Law to finance a drought, water, parks, climate, coastal protection, and outdoor access for all program. Article XVI of the California Constitution requires measures authorizing general obligation bonds to specify the single object or work to be funded by the bonds and further requires a bond act to be approved by a 2/3 vote of each house of the Legislature and a majority of the voters. This bill would enact the Safe Drinking Water, Wildfire Prevention, Drought Preparation, Flood Protection, Extreme Heat Mitigation, and Workforce Development Bond Act of 2023, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$15,105,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, wildfire prevention, drought preparation, flood protection, extreme heat mitigation, and workforce development programs. Summary: Existing law establishes the Multifamily Housing Program, administered by the Department of Housing and Community Development. Existing law requires that funds appropriated to provide housing for individuals and families who are experiencing homelessness or who are at risk of homelessness and who are impacted by the COVID-19 pandemic be disbursed in accordance with the Multifamily Housing Program for specified uses, including as grants to cities, counties, and cities and counties. Existing law requires the department, in coordination with the Business, Consumer Services, and Housing Agency, to report to specified committees of the Legislature on the use of these funds, as provided, on or before April 1, 2021. Existing law requires the report to include specified information, including the location of any properties for which the funds are used and the number of usable housing units produced, or planned to be produced, using the funds. This bill would revise the reporting requirement described above by requiring the department to annually report on the use of those funds. Summary: Under existing law, the State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. Existing law requires an application for a permit to appropriate water to include, among other things, sufficient information to demonstrate a reasonable likelihood that unappropriated water is available for the proposed appropriation. Existing law requires the board to issue and deliver a notice of an application as soon as practicable after the receipt of an application for a permit to appropriate water that conforms to the law. Existing law allows interested persons to file a written protest with regard to an application to appropriate water and requires the protestant to set forth the objections to the application. Existing law declares that no hearing is necessary to issue a permit in connection with an unprotested application, or if the undisputed facts support the issuance of the permit and there is no disputed issue of material fact, unless the board elects to hold a hearing. This bill, if the board has not rendered a final determination on an application for a permit to appropriate water for a beneficial use or uses that include mining use within 30 years from the date the application was filed, would require the board to issue a new notice and provide an opportunity for protests before rendering a final determination, with specified exceptions.

Summary: The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 provides the sole and exclusive authority and procedure for the initiation, conduct, and completion of changes of organization and reorganization for cities and districts. The act requires a petitioner or legislative body desiring to initiate proceedings for a change of organization or reorganization to submit an application to the executive officer of the principal county. The act specifies when an application is complete and acceptable for filing, and requires the executive officer to immediately issue a certificate of filing when an application is accepted for filing, as specified. Upon the filing of an application or a resolution pursuant to the act, but prior to the issuance of a certificate of filing, current law requires the executive officer to give notice of the filing to the assessor and auditor of each county within which the territory subject to the jurisdiction change is located, as specified. Current law prohibits the executive officer from issuing a certificate pursuant to the provisions described above until resolutions are adopted by specified counties and cities in which they agree to accept the exchange of property tax revenues. Current law authorizes a county and any local agency within the county to develop and adopt a master property tax transfer agreement, as specified. This bill would, if applicable, prohibit the executive officer from accepting for filing an application for change of organization or reorganization and issuing a certificate of filing pursuant to the provisions described above, and would provide that an application is not deemed accepted for filing pursuant to the provisions described above, if an agreement for the exchange of property tax revenues has not been adopted pursuant to the provisions described above.

Summary: The California Constitution prohibits the ad valorem tax rate on real property from exceeding 1% of the full cash value of the property, subject to certain exceptions. This measure would create an additional exception to the 1% limit that would authorize a city, county, city and county, or special district to levy an ad valorem tax to service bonded indebtedness incurred to fund the construction, reconstruction, rehabilitation, or replacement of public infrastructure, affordable housing, or permanent supportive housing, or the acquisition or lease of real property for those purposes, if the proposition proposing that tax is approved by 55% of the voters of the city, county, or city and county, as applicable, and the proposition includes specified accountability requirements. The measure would specify that these provisions apply to any city, county, city and county, or special district measure imposing an ad valorem tax to pay the interest and redemption charges on bonded indebtedness for these purposes that is submitted at the same election as this measure.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for its physical development, and the development of certain lands outside its boundaries, that includes, among other mandatory elements, a housing element. That law allows a development proponent to submit an application for a development that is subject to a specified streamlined, ministerial approval process not subject to a conditional use permit, if the development satisfies certain objective planning standards. The Zenovich-Moscone-Chacon Housing and Home Finance Act, establishes the California Tax Credit Allocation Committee within the Department of Housing and Community Development. Current law requires the committee to allocate state low-income housing tax credits in conformity with state and federal law that establishes a maximum rent that may be charged to a tenant for a project unit constructed using low-income housing tax credits. This bill would require that a housing development project be a use by right upon the request of an applicant who submits an application for streamlined approval, on any land owned by an independent institution of higher education or religious institution on or before January 1, 2024, if the development satisfies specified criteria, including that the development is not adjoined to any site where more than one-third of the square footage on the site is dedicated to industrial use. Summary: Existing law establishes various programs to address homelessness, including requiring the Governor to create an Interagency Council on Homelessness and establishing the Homeless Housing, Assistance, and Prevention program for the purpose of providing jurisdictions, as defined, with one-time grant funds to support regional coordination and expand or develop local capacity to address their immediate homelessness challenges, as specified. This bill, for regional housing need assessments on or after January 1, 2024, would require "homeless" to be included as an income category for purposes of the regional housing needs allocation plan. By requiring each council of governments to revise the income categories used in regional housing needs allocations, the bill would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason. CEQA authorizes a state agency or a local agency that determines that a project is not subject to CEQA to file a notice of exemption with the office or the county clerk of each county in which the project will be located, as provided. If a person has made a written request to a public agency for a copy of a notice of determination or notice of exemption for a project before the date on which the public agency approves or determines to carry out the project, CEQA requires the public agency, no later than 5 days from the date of the public agency's action, to deposit a copy of the written notice addressed to that person in the United States mail, first-class postage prepaid. CEQA provides that the date upon which the notice is mailed does not affect the limitations periods applicable to specified actions or proceedings to attack, review, set aside, void, or annul specified acts or decisions of a public agency on the grounds of noncompliance with CEQA. Summary: Current law prescribes requirements for the disposal of land determined to be surplus land by a local agency. Those requirements include a requirement that a local agency, before disposing of a property or participating in negotiations to dispose of that property with a prospective transferee, send a written notice of availability of the property to specified entities, depending on the property's intended use, and send specified information in regard to the disposal of the parcel of surplus land to the Department of Housing and Community Development. Current law, among other enforcement provisions, makes a local agency that disposes of land in violation of these disposal provisions, after receiving notification of violation from the department, liable for a penalty of 30% of the final sale price of the land sold in violation for a first violation and 50% for any subsequent violation. Under current law, except as specified, a local agency has 60 days to cure or correct an alleged violation before an enforcement action may be brought. This bill would require a local agency that has received a notification of violation from the department to hold an open and public session to review and consider the substance of the notice of violation. The bill would require the local agency's governing body to provide prescribed notice no later than 14 days before the public session.

Summary: The California Environmental Quality Act (CEQA) requires a court, in an action or proceeding brought challenging any determination, finding, or decision of a public agency on the grounds of noncompliance with CEQA and a finding by the court of such noncompliance, to enter an order that includes one or more of specified mandates, one of which may be a mandate to suspend any or all specific project activity or activities, as provided. CEQA provides that, except as otherwise specified, it is not intended to limit the equitable powers of the courts. This bill would limit the standing to file and maintain the above action or proceeding to the Attorney General. The bill would authorize the court, upon its own motion or of a party, to conduct a hearing to determine if the Attorney General is bringing and maintaining an action or proceeding for nonenvironmental purposes, as defined. If the court determines that the action is brought or maintained for nonenvironmental purposes, the bill would authorize the court to take necessary actions, including the dismissal of the action or proceeding, award of attorneys' fees, or both dismissal and award.

Summary: Current law requires a local agency or nonprofit affordable housing sponsor to satisfy certain requirements to be considered as a potential priority buyer of the surplus state real property, including that the local agency or nonprofit affordable housing sponsor demonstrate, to the satisfaction of the department, that the surplus state real property, or portion of that surplus state real property, is to be used by the local agency or nonprofit affordable housing sponsor for open space, public parks, affordable housing projects, or development of local government-owned facilities. Current law authorizes the Department of General Services to sell surplus state real property, or a portion of surplus state real property, to a local agency, or to a nonprofit affordable housing sponsor if no local agency is interested in the surplus state real property, for affordable housing projects at a sales price less than fair market value if the department determines that such a discount will enable the provision of housing for persons and families of low or moderate income. Current law also authorizes the Director of General Services to transfer surplus state real property to a local agency for less than fair market value if the agency uses the surplus state real property for parks or open-space purposes. This bill would remove authorization for a local agency or nonprofit affordable housing sponsor to be considered as a potential priority buyer of surplus state real property upon demonstration that the property is to be used by the agency or sponsor for open space or a public park. The bill would, where surplus state real property that is to be used by the local agency or nonprofit affordable housing sponsor for affordable housing projects and the affordable housing project is not completed within 5 years of the date the property was acquired by the local agency or nonprofit affordable housing sponsor, require the local agency or nonprofit affordable housing sponsor to pay a penalty in the amount of 1% of the purchase price. The bill would remove authorization to transfer surplus state real property to a local agency for less than fair market value if the agency proposes to use the surplus state real property for parks or open-space purposes.

FEHA requires the Civil Rights Department to enforce specific provisions of the act, including the provision described above. This bill would additionally prohibit the use of a person's credit history as part of the application process for a rental housing accommodation without offering the applicant the option of providing alternative evidence of financial responsibility and ability to pay in instances in which there is a government rent subsidy. Summary: The Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA) does not supersede or limit the authority of a local jurisdiction to adopt and enforce local ordinances to regulate commercial cannabis businesses within that local jurisdiction. Current law authorizes a local jurisdiction to allow for the smoking, vaporizing, and ingesting of cannabis or cannabis products on the premises of a licensed retailer or microbusiness, subject to specified restrictions. Current administrative law

specifies that a licensed retailer or licensed microbusiness authorized for retail sales who operates a consumption area on the licensed premises in accordance with this provision may also sell prepackaged, noncannabis-infused, nonalcoholic food and beverages if the applicable local jurisdiction allows. Summary: The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries that includes, among other things, a housing element. Current law prohibits a local agency, as defined, from imposing a floor area ratio standard that is less than 1.0 on a housing development project that consists of 3 to 7 units, or less than 1.25 on a housing development project that consists of 8 to 10 units. Current law prohibits a local agency from imposing a lot coverage requirement that would physically preclude a housing development project of not more than 10 units from achieving the floor area ratios described above. This bill would delete the 10-unit maximum for eligible projects, and would prohibit a local agency from imposing a floor area ratio standard that is less than 2.5 on a housing development project that consists of 11 to 20 units. Current law requires that the direct install program give preference to projects in buildings that meet specified criteria. The Budget Act of 2022 appropriated \$112,000,000 from the General Fund for purposes of the Equitable Building Decarbonization Program. This bill would revise and recast the direct install program to, among other things, expressly require the commission to award grants through the program, require that third-party implementers perform the projects funded through the program rather than authorizing the commission to administer the program through regional third-party implementers, limit participation in the program to certain individuals, also give preference to projects in buildings in specified regions of the state, and expand the projects eligible to be funded through the program, as specified. Summary: Current property tax law requires that all property subject to tax be assessed at its full cash value, and includes certain possessory interests among those property interests that are subject to tax. Current property tax law defines a taxable possessory interest to be a use that is independent, durable, and exclusive. Current property tax law specifies that, for purposes of the definition of a taxable possessory interest, a possession or use is not independent if it is pursuant to a contract that includes, but is not limited to, a long-term lease for the private construction, renovation, rehabilitation, replacement, management, or maintenance of housing for active duty military personnel and their dependents, if specified criteria are met. This bill would provide that there is no independent possession or use of land or improvements if the possession or use is for a tenancy, as defined, in a residential unit, as defined, in a publicly owned housing project, as defined, is part of a governmental assistance program, and directly fulfills the governmental, public purpose of providing the housing, as described in the governmental assistance program.

Summary: Current law awards jurisdictions that are in substantial compliance with specified provisions and that are prohousing additional points or preference in the scoring of applications for specified state programs, including, among others, the Affordable Housing and Sustainable Communities Program and the Infill Incentive Grant Program of 2007. Current law authorizes additional bonus points to be awarded to other state programs when already allowable under state law. Current law establishes the Infill Infrastructure Grant Program of 2019, which requires the department, upon appropriation of funds by the Legislature, to establish and administer a grant program to allocate those funds to eligible applicants, as defined, to fund capital improvement projects that are an integral part of, or necessary to facilitate the development of, a qualifying infill project, qualifying infill area, or catalytic qualifying infill area, as those terms are defined, pursuant to specified requirements. Current law requires the department, in its review and ranking of applications for the award of capital improvement project grants, to rank affected qualifying infill projects and qualifying infill areas based on specified priorities. This bill would remove the Affordable Housing and Sustainable Communities program from the list of specified state programs for which additional points or preference is awarded.

This bill, with respect to the Infill Infrastructure Grant Program of 2019, would specify that only the qualifying infill area portion of that program must be awarded additional points or preference. Summary: Decisions of the Public Utilities Commission adopted the California Solar Initiative, to be administered by the state's 3 largest electrical corporations and subject to the commission's supervision. Current law requires the commission to ensure that not less than 10% of the funds for the California Solar Initiative are used for the installation of solar energy systems on low-income residential housing. Pursuant to this requirement, the commission adopted decisions that established the Multifamily Affordable Housing Solar Roofs Program, pursuant to which the electrical corporations provide monetary incentives for the installation of solar energy systems on low-income residential housing. Current law requires the commission, beginning with the 2016-17 fiscal year and ending with the 2019-20 fiscal year, to authorize the annual allocation of certain amounts of moneys for the Multifamily Affordable Housing Solar Roofs Program. Current law authorizes the commission to continue authorizing the allocation of those moneys through June 30, 2026, if the commission determines that revenues are available and that there is adequate interest and participation in the program. Summary: Current law establishes the Code Enforcement Incentive Program pursuant to which the Department of Housing and Community Development, upon appropriation by the Legislature, makes funds available as matching grants to cities, counties, and cities and counties that operate local building enforcement programs for more than 3 years, as provided. Current law requires the recipient city, county, or city and county to provide a case or in-kind local match of least 25% in the first year, 50% in the 2nd year, and 75% in the 3rd year, and limits the maximum grant to a single recipient under the program to \$1,000,000. Current law requires the department to award grants under the program on a competitive basis, based on criteria weighted for specified applicants, including local government applicants that propose to identify and prosecute owners with habitual, repeated, multiple code violations that have remained unabated beyond the period required for abatement. The bill would revise the cash or in-kind local match requirement, described above, to instead require a recipient city, county, or city and county to match at least 35% of the funds awarded over 3 years. The bill would

increase the maximum grant to a single recipient under the program from \$1,000,000 to \$2,000,000, and require the department to adjust that amount for inflation at least once every 5 years.

Summary: Current law requires the Department of Housing and Community Development to determine the existing and projected need for housing for each region, as specified. Current law requires the appropriate council of governments, or for cities and counties without a council of governments, to adopt a final regional housing need plan that allocates a share of the regional housing need to each city, county, or city and county, as provided. Current law requires a city or county to determine whether each site in its inventory of land can accommodate the development of some portion of its share of the regional housing need, as provided. This bill, for a housing element or amendment adopted as part of the seventh planning period, would require the planning agency to provide notice to the owner of a site included in the above-described inventory that the site is included in that inventory, if the owner's identity and contact information is known, as specified. If the site owner notifies the planning agency or the department that the owner does not intend to develop at least 80% of the number of units for the site, determined as described above, during the current planning period, the bill would provide that the site would not be considered a site that can be developed to meet the jurisdiction's share of the regional housing need, except as specified. The bill would require the planning agency to make a reasonable effort to identify an owner and the owner's contact information and to determine the intent of the owner to develop the site. The bill would require that the information be an important factor for the department in determining whether the housing element identifies sufficient sites to meet the jurisdiction share of regional housing. The bill would require the department to amend specified

standards, forms, and definitions to implement these provisions.

Summary: Current law, until January 1, 2024, authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency or in other situations related to public health that exempt a legislative body from the general requirements (emergency provisions) and impose different requirements for notice, agenda, and public participation, as prescribed. The emergency provisions specify that they do not require a legislative body to provide a physical location from which the public may attend or comment. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met, including restrictions on remote participation by a member of the legislative body. This bill would authorize a legislative body to use alternate teleconferencing provisions similar to the emergency provisions indefinitely and without regard to a state of emergency. The bill would alternatively define "legislative body" for this purpose to mean a board, commission, or advisory body of a local agency, the membership of which board, commission, or advisory body is appointed and which board, commission, or advisory body is otherwise subject to the Ralph M. Summary: Existing law, the Planning and Zoning Law, authorizes a development proponent to submit an application for a multifamily housing development that is subject to a streamlined, ministerial approval process, as provided, and not subject to a conditional use permit, if the development satisfies specified objective planning standards, including, among others, that the development proponent has committed to record, prior to the issuance of the first building permit, a land use restriction or covenant providing that any lower or moderate-income housing units required, as specified, remain available at affordable housing costs, as defined, or rent to persons and families of lower or moderate-income for no less than specified periods of time. Existing law repeals these provisions on January 1, 2026. This bill would authorize the Department of General Services to act in the place of a locality or local government, at the discretion of that department, for purposes of the ministerial, streamlined review for development on property owned by or leased to the state. Summary: Current law establishes the Multifamily Housing Program administered by the Department of Housing and Community Development. Current law requires assistance for projects under the program to be provided in the form of deferred payment loans to pay for eligible costs of specified types of development, as provided. Current law requires that specified funds appropriated to provide housing for individuals and families who are experiencing homelessness or who are at risk of homelessness and who are inherently impacted by or at increased risk for medical diseases or conditions due to the COVID-19 pandemic or other communicable diseases be disbursed in accordance with the Multifamily Housing Program for specified uses. Current law exempts these specified funds

Summary: The Costa-Hawkins Rental Housing Act prescribes statewide limits on the application of local rent control with regard to certain properties. The act generally authorizes an owner of residential real property to establish the initial rental rate for a dwelling or unit, except in specified circumstances, including, (1) when the residential real property has a certificate of occupancy issued after February 1, 1995, (2) when the residential real property has already been exempt from the residential rent control ordinance of a public entity on or before February 1, 1995, pursuant to a local exemption for newly constructed units, and (3) when the residential real property is alienable and separate from title to any other dwelling units, except as specified. This bill would instead authorize an owner of residential real property to establish the initial rental rate for a dwelling or unit when the residential real property has been issued a certificate of occupancy issued within the 15 years preceding the date on which the owner seeks to establish a rental rate under these provisions.

Summary: Current law makes it a misdemeanor to commit the crime of trespass, which includes refusing or failing to leave land, real property, or structures belonging to, or lawfully occupied by, another and not open to the general public upon being requested to leave by a peace officer at the request of the owner, the owner's agent, or the person in lawful possession and upon being informed by the peace officer that they are acting at the request of the owner, the owner's agent, or the person in lawful possession. Current law requires the owner, the owner's agent, or the person in lawful possession to make a separate request to the peace officer on each occasion when the peace officer's assistance in dealing with a trespass is requested, except that a single request for peace officer assistance may be made for a period not to exceed 12 months when the premises or property is closed to the public and posted as being closed. Current law requires the requester to inform the law enforcement agency to which the request was made when the assistance is no longer desired before the 12-month period expires. Current law also authorizes a single request for a peace officer's assistance to be made for a period of time not to exceed 30 days and identified by specific dates when there is a fire hazard or the owner, the owner's agent, or the person in lawful possession is absent from the property. Under current law, a request for assistance expires when ownership of the property changes or upon a change in the person in lawful possession. This bill would authorize a single request for assistance to be made and submitted electronically, in a notarized writing on a form provided by the law enforcement agency, to a peace officer for a period of not more than 3 years when the premises or property is closed to the public and posted as being closed and would require the notice ending assistance before the 3 years has passed to be in writing.

Summary: The California Constitution prohibits the development, construction, or acquisition in any manner of a low-rent housing project by any state public body, as defined, until a majority of the qualified electors of the city, town, or county in which it is proposed to develop, construct, or acquire the same, voting upon that issue, approve the project by voting in favor at an election. The California Constitution, for purposes of this prohibition, defines "low-rent housing project" to mean any development composed of urban or rural dwellings, apartments, or other living accommodations for

persons of low income, financed in whole or in part by the federal government or a state public body or to which the federal government or a state public body extends assistance by supplying all or part of the labor, by guaranteeing the payment of liens, or otherwise. Existing law establishes exclusions from this definition of "low-rent housing project," including a development that consists of the acquisition, rehabilitation, reconstruction, alterations work, or any combination thereof, of lodging facilities or dwelling units using moneys appropriated and disbursed pursuant to specified provisions of the Zenovich-Moscone-Chacon Housing and Home Finance Act relating to affordable housing preservation, rental housing development awarded funds from certain multifamily housing direct loan programs, and housing for individuals and families who are experiencing homelessness or who are at risk of homelessness and who are impacted by the COVID-19 pandemic or other communicable diseases.

Summary: Would require a proponent of a new development within a state responsibility area or local responsibility area that is within a high or very high fire hazard severity zone to include an evacuation plan with its application submitted to the local government for the development. The bill would subject the evacuation plan to the independent approval of the local government, as defined, the respective law enforcement and fire agencies that have jurisdictional response authority over the relevant area, and the California Highway Patrol if the proposed evacuation routing utilizes state or federal highways. The bill would require the evacuation plan to consist of specified information, including a wildfire behavior study, a traffic engineering study, and the best available routes for evacuation egress by populations within the development when threatened by wildfire. By imposing new duties on local governments in reviewing and approving developments in high and very high fire hazard severity zones, the bill would impose a state-mandated local program.

Summary: The California Endangered Species Act requires the Department of Fish and Wildlife to adopt regulations for issuance of incidental take permits. Existing law prohibits the department from issuing an incidental take permit if issuance of the permit would jeopardize the continued existence of the species. Existing law requires the department to make this determination based on the best scientific and other information that is reasonably available, and to include consideration of the species' capability to survive and reproduce, and any adverse impacts of the taking on those abilities in light of (1) known population trends; (2) known threats to the species; and (3) reasonably foreseeable impacts on the species from other related projects and activities. This bill would require the department to make that decision based on a real-time monitoring system, rather than a calendar-based schedule, and to additionally consider the proximity of the species relative to the operation of a

Summary: The California Constitution generally conditions the imposition of a special tax by a city, county, or special district upon the approval of 2/3 of the voters of the city, county, or special district voting on that tax. Under current law, a charter city, pursuant to its constitutional authority over municipal affairs, may levy local taxes to raise revenues for local purposes, subject to restrictions imposed by that city's charter or preemption in matters of statewide concern. Current law also authorizes the legislative body of any city to levy any tax which may be levied by any charter city, subject to the voters' approval pursuant to the California Constitution. Current law specifies procedural requirements for the legislative body of a city, county, or district to propose to the voters an ordinance or resolution to adopt a special tax. This bill would specify that, as used in those procedural requirements, a special tax includes a tax, levied by any city, including a charter city, county, or district on vacant sites included in the inventory on land suitable and available for residential development pursuant to the housing element of a county's or a city's long-term general plan, that meets the constitutional requirements.

Summary: The Permit Streamlining Act, which is part of the Planning and Zoning Law, requires each public agency to provide a development project applicant with a list that specifies the information that will be required from any applicant for a development project. Specifically, current law establishes time limits for completing reviews regarding whether an application for a postentitlement phase permit is complete and compliant, and whether to approve or deny an application, as specified. Current law requires a local agency, if a postentitlement phase permit is determined to be incomplete, denied, or determined to be noncompliant, to provide a process for the applicant to appeal that decision in writing to the governing body of the agency or, if there is no governing body, to the director of the agency, as provided by that agency. Summary: Current law exempts the disposal of certain surplus land from the requirements of the Surplus Land Act, and defines "exempt surplus land," for purposes of the act. Current law authorizes a local agency, on an annual basis, to declare multiple parcels as "surplus land" or "exempt surplus land," for purposes of the act, as supported by written findings. Existing administrative law requires a local agency making a determination that property is exempt surplus land to provide a copy of the written determination, as specified, to the department at least 30 days before disposition. This bill would authorize a local agency to declare administratively that land is exempt surplus land if the declaration and findings are published and available for public comment, and the local public entities and housing sponsors described above are notified at least 30 days before the declaration takes effect.

Summary: Current law, commonly referred to as the Safe Dig Act, establishes a regional notification system to provide certain entities, defined as operators, that own, operate, and maintain subsurface installations with advance warning of nearby excavations or other work for the purpose of protecting those installations from damage, removal, relocation, or repair. Current law defines a "subsurface installation" for purposes of the act as any underground pipeline, conduit, duct, wire, or other structure, except nonpressurized sewerlines, nonpressurized storm drains, and other nonpressurized drain lines. Current law establishes the California Underground Facilities Safe Excavation Board, also known as the Dig Safe Board, for the enforcement and administration of the Safe Dig Act. This bill, among other changes, would revise the definition of "subsurface installation" to include nonpressurized sewerlines, nonpressurized storm drains, and other nonpressurized drain lines. The bill would revise requirements for notifying operators of subsurface installations within a proposed

area of excavation, would specify conditions under which an excavator is required to contact the regional notification to request a return trip, and would revise requirements for an excavator to use vacuum equipment. Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment, or to adopt a negative declaration if it finds that the project will not have that effect. CEQA authorizes specified entities to file and maintain with a court an action or proceeding to attack, review, set aside, void, or annul an act of a public agency on grounds of noncompliance with the requirements of the act. This bill would require an action or proceeding brought to attack, review, set aside, void, or annul acts or decision of a public agency for a commercial, housing, or public works project that helps to address longstanding critical needs in the project area and that results in an investment of at least \$25,000,000 in the state on the grounds of noncompliance with CEQA to be resolved, to the extent feasible, within 365 days of the filing of the certified record of proceedings with the court. Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that the lead agency proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA establishes a procedure by which a person may seek judicial review of the decision of the lead agency made pursuant to CEQA. This bill would require the Judicial Council to adopt rules of court applicable to actions or proceedings brought to attack, review, set aside, void, or annul the certification or adoption of an environmental impact report for water conveyance or storage projects, as defined, or the granting of project approvals, including any appeals to the court of appeal or the Supreme Court, to be resolved, to the extent feasible, within 270 days of the filing of the certified record of proceedings with the court to an action or proceeding seeking judicial review of the lead agency's action related to those projects.

Summary: The California Constitution limits the amount of ad valorem taxes on real property to 1% of the full cash value of that property, defined as the county assessor's valuation of real property as shown on the 1975-76 tax bill and, thereafter, the appraised value of the real property when purchased, newly constructed, or a change in ownership occurs after the 1975 assessment, subject to an annual inflation adjustment not to exceed 2%. The California Constitution, until February 15, 2021, excluded from classification as a "purchase" or "change in ownership" the purchase or transfer of a principal residence, and the first \$1,000,000 of other real property, in the case of a purchase or transfer between parents and their children, or between grandparents and their grandchildren if all the parents of those grandchildren are deceased, except as provided. At the November 3, 2020, statewide general election, the voters approved Proposition 19. Pursuant to Proposition 19, the California Constitution, on and after February 16, 2021, removes the above-described exclusion from classification as a "purchase" and "change in ownership" requiring reappraisal, and instead excludes from classification as a "purchase" and "change in ownership" the purchase or transfer of a family home or family farm, as those terms are defined, of the transferor in the case of a transfer between parents and their children, or between grandparents and their grandchildren if all the parents of those grandchildren are deceased, if the property continues as the family home or family farm of the transferee, as specified. This measure would end the operation of the above-described provisions of Proposition 19 on January 1, 2025.
